

Natural Resources Wales permitting decisions

Part surrender

We have decided to accept the surrender of part of the permit for Electrical Carbon, Swansea operated by Morganite Electrical carbon Limited.

The permit number is EPR/VP3339PD

We are satisfied that the necessary measures have been taken to avoid any pollution risk and to return the site to a satisfactory state.

We consider in reaching that decision we have taken into account all relevant considerations and legal requirements.

Purpose of this document

This decision document:

- explains how the operator's application has been determined
- provides a record of the decision-making process
- shows how all relevant factors have been taken into account

Structure of this document

- Key issues
- Annex 1 the decision checklist

Key issues of the decision

The areas of the site that are being surrendered through this part surrender are non-process areas. Specifically they are car park, office and landscaped/planted areas. These areas are not and have never been part of the process areas for the regulated activity carried out under this permit. These areas did not need to be included in the installation boundary when it was first permitted and are not needed now. No remedial work is required to be carried out in these areas as they have not been contaminated by permitted activities.

Annex 1: decision checklist

This document should be read in conjunction with the Duly Making checklist, the application and supporting information and permit/ notice.

Aspect considered	Justification / Detail
The facility	
The regulated facility	The permitted regulated activities have not changed as a result of the partial surrender.
The permit conditions	
Changes to permit conditions	The permit conditions have not changed as a result of the partial surrender.
The site	
Extent of the surrender application	<p>The extent of the site has changed as a result of the partial surrender. The operator has provided a plan showing the extent of the site of the facility that is to be surrendered. And a plan showing the new "reduced area" of the site.</p> <p>We consider these plans to be satisfactory,.</p>
Pollution risk	We are satisfied that the necessary measures have been taken to avoid a pollution risk resulting from the operation of the regulated facility.
Satisfactory state	<p>We are satisfied that the necessary measures have been taken to return the site of the regulated facility to a satisfactory state.</p> <p>In coming to this decision we have had regard to the state of the site before the facility was put into operation.</p>
