Description: The trail is on a combination of forest roads and steep narrow paths along some of the roughest terrain in the forest. Often less than 50cm wide, the path has an unmade, uneven surface where you can expect mud, rocks and tree roots. There are steps on the steep ascent up to Moel Hafod Owen where you will find a bench at the top for a well-deserved picnic whilst admiring the view. If you want to experience a real adventure, ensure you go well prepared for a long day in the woods.
